SUMMARY

Cybersecurity postgraduate student with hands-on experience in network operations, system troubleshooting and security tools, currently pursuing an MSc in Cyber Security Management at Ravensbourne University London. Strong foundation in threat analysis, incident response and risk management, combined with practical experience supporting secure IT environments. Proficient in Python and security tooling, with a growing focus on automation, security monitoring and investigative analysis. Passionate about understanding real-world cyber threats and applying methodical problem-solving to detect, analyse and remediate security issues.

EDUCATION

Ravensbourne University

London, UK

Master of Science in Cyber security management

Present

- **Grade: (Expected) – Sep.2026**
- **Core Modules:** Cyber Security Principles, Cyber Security Risk Management, Principles of Project Management, Strategic Cyber Security Management, Financial Management for Cyber Security, Research Methods and Critical Thinking.

SRM Institute of Science and Technology

Chennai, India

Bachelor of Commerce (Information System Management)

Sept. 2020-2023

- **Grade:** First Class with Distinction
- **Core Modules:** Financial & Management Accounting, Taxation, Banking & Insurance, Business and Company Law, Human Resource Management, MIS, E-Business, Quantitative Techniques & Statistics, IT (DBMS, Java, Python), Business Communication & Leadership Skills.

WORK EXPERIENCE

PLOTEL SOLUTIONS

Chennai, India

Network Technician

Aug. 2023-2025

- Applied strong problem-solving skills to configure, maintain, and troubleshoot network systems, ensuring reliable connectivity and minimising downtime.
- Used attention to detail and technical expertise to diagnose network issues, improving operational efficiency and system reliability.
- Demonstrated adaptability by supporting hardware upgrades and deploying software updates, enhancing system performance and security.
- Utilised clear communication skills to provide technical support to end users, resolving hardware, software, and network issues efficiently.
- Collaborated with cross-functional IT teams and maintained accurate documentation to optimise infrastructure and support smooth business operations.

IT & Language Skills

- English - verbal and written.
- Programming Language - Java, Python, Dbms, C++.
- Tools - Wireshark, Metasploit, Burp Suite, Nessus, Kali Linux.

Core skills :

- Network analysis & troubleshooting.
- Vulnerability assessment.
- Incident investigation.
- Threat analysis & risk assessment.
- System and infrastructure support.
- Version control (Git – basic), Windows/Linux environments.

PROJECTS

Ravensbourne University

London, UK

Cyber Security Principles

- Given the detail report on 23andMe Data Breach 2023 with Technical Analysis, Countermeasures, Incident response and recover.

Cyber Security Risk Management

- Conducted risk and vulnerability assessments, designed security policies, and analysed the business impact of cybersecurity incidents within a hypothetical organization.

Principles of Project Management

- Planned and managed a hypothetical fundraising event using project management principles, including budgeting, scheduling, team coordination, and risk management.

Brute Force Attack Simulation using Burp Suite (PortSwigger Lab)

- Simulated username enumeration and automated brute force attacks using Burp Suite Intruder, identifying valid credentials and analysing authentication vulnerabilities.

Password Cracking & Security Analysis using John the Ripper

- Conducted password auditing using John the Ripper, performing dictionary and brute-force attacks to identify weak passwords and evaluate security risks.

CERTIFICATIONS

Cyber Security Professional Plus - CSPP

Aug 2025

- Cyber security professional plus Certification form the Datamites & Skilllogic - Bangalore, India.
- Mainly concentrated on ethical hacking, network & system security, vulnerability assessment, malware & wireless threats, cryptography.
- AI-based security concepts, defensive mechanisms, incident response, and cyber laws & ethics.
